

Program Specific Outcomes (PSO)

Bachelor of Architecture Degree Program

Program Specific Outcomes (PSO)	
PSO 1	Proficiently identify, analyze, and design solutions for architecturally significant real-world challenges.
PSO 2	Develop enhanced skills to bolster employability in architecture and related fields.
PSO 3	Apply internship-acquired knowledge and research skills to effectively address practical architectural problems.

Program Outcome (PO)

Bachelor of Architecture Degree Program

Program Outcome (PO)	
PO 1	BASIC KNOWLEDGE: Apply a broad spectrum of knowledge encompassing humanities, mathematics, science, engineering, and architectural principles to tackle intricate architectural challenges.
PO 2	PROBLEM ANALYSIS & RESEARCH: Proficiently investigate complex architectural Problems, utilizing research-based methodologies to reach valid conclusions.
PO 3	APPLICATION OF ARCHITECTURAL TOOLS: Employ modern architectural tools effectively to address architectural complexities.
PO 4	APPLICATION OF ADVANCED CONCEPTS: Apply advanced concepts in building construction, management, and finance to guide projects within multidisciplinary teams, both as a team member and a leader.
PO 5	ETHICS AND SUSTAINABILITY: Demonstrate a strong commitment to ethical practices and professional responsibilities, emphasizing sustainable development and the consideration of societal and environmental impacts.
PO 6	LIFE LONG LEARNING: Acknowledge the importance of lifelong learning in an ever-evolving technological landscape, enabling effective individual and collaborative performance within diverse teams.
